The Wildmore estate is part of the on-going urban extension in Whittington. It has been built with the community in mind with the provision of play areas and public open spaces.

These much needed affordable homes form only one part of the wider site. The houses have been built to a high standard and offer local residents the opportunity to move to modern energy efficient homes that meet their changing family needs.

There has been a phased handover of properties from April 2015 to May 2017.
