

Willenhall, Coventry

Chepstow Close – 2 x 2 bed houses
Tarquin Close – 2 x 3 bed houses
2 x 4 bed houses
2 x 2 bed bungalows

Small infill developments of family housing in established neighbourhoods, these new-build properties were part of a larger scheme spanning six sites across Coventry.

The site of an unpopular block of flats and a pocket of previously unused land, both subject to anti social behaviour, were successfully redeveloped to provide much needed affordable housing.

Many of the properties provided local residents the opportunity to move to properties that met their changing family needs, and to remain within their existing neighbourhood.

Chepstow Close properties handed over in March 2016 and Tarquin Close properties handed over in April 2016.
