

Woodlands Highway, Chelmsley Wood

2 x 2 bed houses
9 x 1 bed apartments

In May 2005, Solihull MBC signed a 15 year Regeneration Agreement with InPartnership Ltd, Bellway Homes and Whitefriars Housing Group and so created The North Solihull Partnership.

The aim of the Partnership was to bring about the physical, social and economic regeneration of North Solihull; in particular the wards of Chelmsley Wood, Smith's Wood and Kingshurst & Fordbridge.

The houses and apartments are built to Code for Sustainable Homes level 4 and provide modern, energy efficient new homes.

This development included the provision of a much improved play area for local children.

The development started on site in June 2015 with all properties handed over during April and May 2016.
